

What I like ...

Practical and Sturdy Draft Shield

The sturdy draft shield will stand up to the daily use even by inexperienced operators. Moreover, it can be completely disassembled to conveniently clean the glass parts in a dishwasher.

Rugged Weigh Cell for Reliable Results – Every Time, All the Time

High-resolution, overload protected weigh cells, made in Germany, ensure durable and reliable performance of the Practum®.

Hassle-Free Below-Balance Weighing of Oversize Containers

Extra-large volumes or magnetic substances are easy to weigh accurately using the easily accessible weighing port.

Supervisor Lock

This practical feature enables teachers and professors to lock the menu. As a result, students will concentrate on learning.

USB Port and Data Transfer to Microsoft® Excel for Perfect Records

The USB port automatically detects when a Sartorius laboratory printer is connected to the Practum®. This interface also enables you to transfer your weighing data directly into a Microsoft® Excel spreadsheet, without the need for additional software.

Changes Readily Documented by Interval-Controlled Printout of Weights

The Practum® will document weights automatically and reliably, such as slow filling processes.

Extra-large Feet and Up-front Level Indicator for Easy Leveling

Two large, easy-to-adjust feet and an outstandingly simple-to-read level indicator on the front make it a breeze for you to level the Practum®. This helps ensure accurate, repeatable weighing results.
