" I just transfer weights and other app data directly into an Excel file at a mouse click, without any additional software or bothering with tweaking this really couldn't be more convenient."

needing
the settings –

Every advanced analytical laboratory requires GLP- | GMP-
compliant records, as well as fast and secure processing of
the data generated. The Plug and Work technology in Quintix®
saves you considerable time and effort in generating fast and
reliable documents.

Quintix® substantially simplifies processing data in spreadsheets.
How? After connecting the USB port on Quintix® to a computer,
just open the Microsoft® Office program you need. Quintix®
delivers data in your choice of format, either text or numbers,
enabling effortless and accurate spreadsheet calculations.
No additional software or special configuration settings are
needed.

The Sartorius standard printer
YDP40 is automatically
detected by Quintix®.
Thanks to interactive
user guidance, Quintix®
provides help in generating
error-free printouts, for
instance, by inputting the
correct sample ID numbers.
